Tackling Poverty Through Education

Origins?

Poverty is a persistent feature of life in Northern Ireland. We are developing a participative poverty awareness training resource based on the information pack, Poverty and Powerlessness produced by NIAPN in 2002

What?

The Poverty Awareness Programme will create a unique participative resource aimed at facilitating discussions on issues common to people experiencing poverty in Northern Ireland and to explore unique to individual groups or communities.

Where?

This education programme will be developed and delivered on a community outreach basis to young people and adults across Northern Ireland.

Contents?

The PAP training resource has 4 core modules such as:

- Poverty Awareness
- Poverty & Policy
- Poverty & Gender
- Poverty & Children

Other modules to choose from will include:

- Poverty & Race
- Poverty & Disability
- Poverty & Older People
- Poverty & Conflict

Benefits?

We see participation in the training programme as a step on the path to more local level anti-poverty work delivering in a real way for communities right across Northern Ireland.
